Rotomolded parts prepared from bimodal polyethylene

A dual reactor solution process gives high density polyethylene compositions containing a first ethylene copolymer and a second ethylene copolymer and which have good processability, toughness, and environmental stress crack resistance. The polyethylene compositions are suitable for the preparation of rotomolded parts.

Aquilus Piscine & Spas First Semester Review

24/05/2022

The Aquilus Pools and Spas franchise enjoyed a positive financial first semester with the launch of new products for the well-being market segment in order to meet growing consumer demand. One example is the Nordic bath series. The range offered by the brand combines a solid rotomoulded tank with an authentic thermo-treated pine shell. The spa can be heated by a wood stove in the pure Nordic tradition. (Translated from French)

Rotomolding Market News - North America

Testing Sea-Doo's Switch Cruise 21 : an uninhibited pontoon-boat

The Quebec-based personal watercraft specialist is dusting off the pontoon boat market by offering innovative and fun hybrid models that can be driven like a jet-ski. Incredible ! The Cruise 21's first originality in line is its trimaran hull, which is made of Polytec, an ultra-resistant plastic that's transformed using the rotomolding process. (Translated from French)

Bike Biz product partner advertorial: Developing success

27/05/2022

The desire to innovate, to question, problem solve, and to create drives the team at product development company Designworks Ltd, says co-founder Peter Rickett. Consultancy work provides us with a unique opportunity to approach each project armed with experience and knowledge gained across a range of disciplines, we encourage open exchange of ideas – we call this process 'ideation'. With so many unique opportunities presenting themselves to us we are able to diversify, we apply knowledge from one field directly to another. Some such examples include employing a Roto-molding process reserved for large format.

Argentina : The freshly renovated Saavedra Park playground was inaugurated

One of the main attractions that was incorporated is the cross-game type "pirate ship". A climbing dome was also added, 2 black hammocks for adults, with a red porch, two other identical hammocks but sized for children, and a green rotationally molded merry-go-round. (Translated from Spanish)
