### **Introducing Vondom In-Pool Furniture**

AquaBlu is a proud supporter of the VONDOM Revolution, a philosophy based on the creation of unique and timeless pieces with recycled polypropylene materials like plastics and fishnets collected from our oceans. This eco-friendly initiative reflects the company's concern for sustainable development, which they believe is essential to achieving a better quality of life. VONDOM also offers other environmental solutions such as solar panels and LED lighting to create more efficient and sustainable products. With these practices, AquaBlu and VONDOM are not only demonstrating their commitment to the environment but also setting an example for other companies to follow.

### **The Lambro Line of Adorable, Rotomolded Cargo E-Bikes**

Lambro cargo e-bikes, produced by Italian e-mobility company RePower, are "real design objects" with "a sturdy and functional structure with unmistakable lines," the company says. Designed by industrial design consultancy Makio Hasuike & Co., the Lambro features a rotomolded body that comes in two flavors: An open-bed LambroGino version suitable for carrying passengers or cargo, and an enclosed LambroGio cargo version with a front lid that doubles as a canopy for the operator, providing some relief in rain.
